EDUCATION

Shri M. D. Shah Vidhyalaya, GSEB Board

Secondary School (Class 10) - Percentage: 85%

Botad, Gujarat

May 2021

Smt. R. A. Kalathiya Vidhya Bhavan, GSEB Board

Higher Secondary (Class 12) - Percentage: 75% | JEE (Main): 94.5 PR

Botad, Gujarat

May 2023

Darshan Institute of Engineering & Technology, Darshan University

Bachelor of Technology (Computer Science & Engineering) - CGPA: 9.24/10

Rajkot, Gujarat

July 2023 - May 2027

WORK EXPERIENCE

Darshan University

Teaching Assistant

Dec 2025 - Apr 2026

Rajkot

- Conducted lab sessions for junior students in **C Programming, Python, Digital Logic, and Logic Development**.
- Assisted students during lab sessions in understanding **programming** concepts, **debugging** code and completing lab assignments.

PROJECTS

AgroSmart – Smart Agriculture Management System | React.js, ASP.NET Core, SQL Server, n8n, EmailJS | [Link](#)

- Built a **full-stack smart agriculture platform** enabling farm, field, and crop management with **real-time sensor monitoring** and **weather intelligence**.
- Developed **RESTful APIs** using **ASP.NET Core** and Entity Framework, implementing JWT-based **authentication** and **role-based access control** (Admin/User).
- Integrated **automation workflows** using **n8n** for login notifications, **security alerts**, and **email automation**, along with external APIs such as **OpenWeatherMap** and **AGMARKNET**.
- Deployed the platform across multiple cloud environments including **Microsoft Azure, Render, SmarterASP.NET, Netlify, Cloudflare Pages, and Vercel**.

MOMS – Minutes of Meeting System | Next.js, TypeScript, PostgreSQL, Prisma, Vercel, Jitsi Meet | [Link](#)

- Built a meeting management platform supporting **scheduling, attendance tracking, document management, and automated reporting**, enhancing **collaboration and streamlining meeting** workflows.
- Implemented **JWT-based authentication** with **role-based access** (Admin, Convener, Staff) and developed scalable APIs using **Next.js API routes** with **Prisma ORM**.
- Integrated **Jitsi Meet** for real-time **video conferencing**, enabling **seamless virtual meeting** participation.

PDF to MCQ Generator | FastAPI, Python, React, Tailwind, RAG Pipeline, Groq Llama 3.3 70B | [Link](#)

- Developed an **AI-powered system** to **generate structured MCQs** from **PDF, PPTX, and TXT files**, including scanned documents using **OCR**.
- Implemented a **RAG-based pipeline** with **embeddings** and **vector search** to improve contextual accuracy and reduce hallucinations.
- Built scalable **backend APIs** using **FastAPI** and integrated **Groq Llama 3.3 70B** for high-quality question generation.
- Deployed full-stack application using **Vercel** (frontend) and **Render** with **Docker** for reliable and scalable processing.

TECHNICAL SKILLS

- Relevant Coursework:** Data Structures & Algorithms, Operating Systems, Computer Networks, DBMS, OOP, TOC, CD
- Languages:** C, Java, JavaScript, TypeScript, Python, C#
- Frontend:** React.js, Next.js, EmailJS, Bootstrap, Tailwind CSS, ASP.NET MVC, Blazor
- Backend:** Node.js, Express.js, Nest.js, n8n, REST APIs, WebSocket, Flask, FastAPI, ASP.NET Core
- Databases/Cloud:** MongoDB, SQL Server, Microsoft Azure, MongoDB Atlas, Firebase, Supabase
- Deployment Platforms:** Vercel, Render, Netlify, Railway, Cloudflare, SmartASP.NET
- Tools:** Git, GitHub, Postman, Docker, Swagger, GitHub Actions

ACHIEVEMENTS

- Secured **Runner-up** position at **Code 2 Trade Hackathon 2025** (Darshan University) and advanced to the offline round of **Odoo Hackathon 2025** (Gandhinagar) after clearing the initial online screening.
- Completed **NPTel Elite certifications** in **Business Intelligence & Analytics (76%)**, **Introduction to Machine Learning (64%)**, and **Blockchain and its Applications (66%)**, demonstrating strong foundations in data analytics, machine learning, and emerging technologies.
- Solved **300+ DSA problems** on **LeetCode** and qualified **Round 1** of **TCS CodeVita**.
- Qualified **GATE 2026 – CSE (AIR 4226, Score: 48.34)**
- Open Source Contributor (Webpack) | Hacktoberfest 2025 | Project Admin – **Winter of Code Social**
- Solved performance and scalability challenges by building AgroSmart, achieving **26K+ monthly pageviews** with **2K+ users** using **CDN** caching and optimized delivery.

POSITIONS OF RESPONSIBILITY

- Team Leader – Code 2 Trade Hackathon 2025** | Led team in building algorithmic trading solution and coordinating development tasks.
